Dear Mr.Mehta,

This is regarding the job vacancy you placed for a Front-End Developer. I have read the job description and requirements carefully and I think I will be a good fit for this position.

I completed a full-stack web development course at Masai school a month ago. Being hands-on experience with mark-up languages, I am well versed in CSS JavaScript. After doing many projects at Masai I know the entire web development process and I am also familiar with browser testing and debugging. I can easily work as a multitasker because of my detailed learning of web development, I also understand layout aesthetics and principles of SEO. I am quick at learning new technologies and can work well with other team members in a face-paced environment.

I am attaching my cover letter and CV with this email

I hope to hear from you soon.

Thank you for your time.

sincerely,

Faizan Ghani  
phone: 987654321
